

coupled to said one of said plurality of second terminals of said photosensor, said control terminal coupled to said transfer line, and

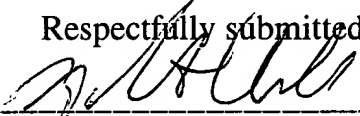

a plurality of storage nodes, each of said plurality of storage nodes coupled to said second terminal of a separate one of said transfer transistor.

REMARKS

The above new claims 58 and 59 are fully supported by Applicant's specification and drawings, and introduce no new matter. The Applicant respectfully requests that this new claim be considered together with claims 1-57 in the above-identified case.

Dated: April 6, 2000

Respectfully submitted,

Robert C. Hall
